

You got to take your hat off to CBS. They still have daytime network radio. This includes Arthur Godfrey, who just keeps plugging away after all these years, in a very excellent way plus Derwood Kirby with an all-talk show, holding his 6 minutes vacated by disgusted Gary Moore (CBS trying now to get him back for AM & TV) Lucille Ball & husband-announcer Gary Morton in a star interview format, all topped off with oldtimer Art Linkletter's variety show. Lucy talked to dancer Gene Kelly who said he wouldn't get up in front of anyone and dance those crazy new trots, Art still does his old TV and radio bit with the kids...for instance..."Honey, you say your Mommie likes your uncle to visit you?" and the sweet little darling answers "Yes, especially when my daddy ain't home!" Derwood talks & talks about everything and everyone except Gary Moore while Godfrey doesn't seem to care about anything, sings, tells jokes, has guests, visits places & pushes CREST toothpaste as the best cleaner although it isn't one of his sponsors (maybe now it is!) while huffing and puffing through 50 minutes each weekday. It's really good! And ABC, Don McNeill's Breakfast Club gang...how long have they been on???

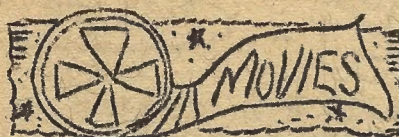

Only one reason I can't say radio still has it over TV, & that's because they killed off JACK ARMSTRONG, MA PERKINS, LUM & ABNER, TOM MIX, etc. Yipes! And with the summer TV re-runs coming up too! Glad I got my old radio tapes to listen to. By the way...don't forget--let's trade tapes!

Don't think that one hobby is a favorite now over the other one to me here-in. It is just that perhaps I have too many--favorites!!!! There are many collectors of old radio shows in the forms of re-recorded tapes, ED KNAPP, GARY HOUGH, JIM HARMON, among many, but there are literally hundreds of collectors of old-old Comic-Books. I thought I was the only nut that had to beat his kids and wife from my old comic-books protecting them from the trash can, etc. Suddenly along comes NEWSWEEK a few weeks ago and I find I'm not the only nutty-collector that had spent his hard-earned dimes when we were kids. BILJO WHITE's BATMANIA just for Batman fans. The ROCKET's BLAST COMICCOLLECTOR with over 50 ads of fans buying and selling their comics, some copies \$8.00 up, BILL SPICER'S excellent SCIENCE ILLUSTRATED with fan letters & original comic-book strip by a pro, am or semi-pro, with beautiful color-cover & ROY THOMAS & his now famous ALTER-EGO with fan letters, color-covers, & original comic-strip illos..they make up the backbone to this hobby...that is growing & growing like un-not such a sci-fi character in one of the "fanzines". JERRY BAILS the college professor of youth and "comics-stature" who helps all collectors with sales and buys and contacts who can't seem to find what they want! And even the pros are having fun here. They send in stuff just for kicks! They welcome the chance to doodle around with amateurs, & the would-be artists..they never had it so good! It is my hope to publish this very "hobefin" (hobby-bulletin) in offset to enable the use of a "comics" & art & photo page (see Editorial column). So, don't go too away so far, keep in close contacts with us...truly, good things are yet to come!\*

Perhaps you know all about it, and again maybe not. The censor law is something the theatre-industry would like to forget anyway. But, in New York just the other day, two judges beat down movie-censors as unfair. It was the Danish import "A Stranger Knocks" was the test, or rather the straw that broke the censor's back! Actually, judges have been killing off blue-noses like flies lately. I recall while working for WB as a film-booker that it was a pain in the booking-book & expensive pain to get and keep seals for all prints coming & going & when you lost 'em. Pretty good pay for just kinda spending the day watching movies. That's what so many censors had only to do, if they had an argument with their spouse that a.m., look-out for the sissors! Wait...no I don't like the smut foreign stuff, but I don't like a critic that can throw politics around against you! Awards won by Disney's MARK POPPINS & the coin take proves what people want. I guarantee if you take a small theatre, put nothing on the screen but a spotlight, you'll sell tickets to the curious. Cut admission now - say \$.50 enabling fans to also buy popcorn & maybe take along a pal, & watch theatres bulge, managers smile, & TV's stay black... "FIREBALL" the new James Bond \$\$\$maker, for instance & how did "Goldfinger" theme not take the song "Oscar"? or at least "DEAR HEART"? - dark final-curtain for Linda Darnell, Stan Laurel, Brace (radio's Lone Ranger) Beemer who we will do a story on next issue...

I have worked only a few shows lately, but they have been for good causes. I think the amateur and semi-pro are missing the boat by not just doing the same thing. It's good for publicity and could mean some new money bookings in the future. Contact your local unit of the Cancer, TB, EASTER SEAL or HEART unit, a lot of prominent people will be on the local unit board. Something you can think about seriously, raise some \$\$\$ for a good cause and you can consider donating that much yourself. Or can you afford to donate it directly from your pocket to those fine organizations?... ABBOTT'S's now have their big new #16 catalog of magic in the mail. What a giant it is, anything you want, a "wish-book" that will make any magic drool!... Abbott's get-together will be held Aug. 18-21... and I caught the last part of a performer cutting Mike Douglas into on his syndicated TV show, but did not catch his name! Using the \$100 "Sawing A Woman In Halves"... good! DUKE STERN who managed a local clothing store for a chain outfit locally moved away but still writes some lines in magic-publications... and who has some real good used items to trade or sell? Well, I've got some! Send lists of "offers" & "wants" and if you want your name to appear here... then let me hear from you!

## EDITORIAL: RIGHT THIS WAY...

I do hope each and every one of you let me know if you are at all interested in receiving copies from me as the cost of doing this as a hobby certainly does run into the money, so to be sure you are on future mailings from me, do let me know you care, and that way I will be sure to send my very best! If you are interested in placing an ad of your wants or offers, or just to get some letters from fellow collectors, I will accept ads with the understanding it is more a contribution, which I can certainly use to help out! I plow a lot of \$\$ into this and really it is the close contacts with fellow collectors that I wish to continue, not make a big profit. Next issue, I hope to make much-much larger, more pages, with more illustrations via offset of original artwork and photos. All contributions about your own hobbies-collections cheerfully accepted and wanted for future publications. But do let me hear from you, or I will send you no more, of anykind, mailings, believing you are not interested....New James Bond movie coming out is titled THUNDERBALL (not FIREBALL!) Entertainment at the movies-what people want in the first place! I have separate lists available on comics, magic props, movie items, radio shows on tapes, comic-books for sale and trade & wants..write for them as I had no time or space to put them this issue! And don't forget to let me know you are out there! Good things are coming! Don't be left out, be safe, send a stamp!

SEE YOU NEXT MONTH!
